Guidelines For Estimating Seabuckthorn Berry Production Costs

May, 2006

The projected seabuckthorn berry production costs in this publication have been prepared to assist you in developing your own production costs.

The capital and cash input costs associated with growing seabuckthorn berries in Manitoba are substantial. Detailed planning is necessary when budgeting for capital expenditures and also for the annual operating costs. The importance of good financial planning is evident by noting the capital required for 5 acres of seabuckthorn berries may be in the vicinity of \$65,000. Cash costs ...
